CHARDONNAY | CHABLIS

Chablis is a region with harsh cold winters, spring frost and hot summers. The dominant soil here is limestone, its white chalky texture is great at retaining and reflecting the warmth of the sun, which also helps the grapes ripen and gives the wines a purity and crispness.

ITALY | TUSCANY

Located in central Italy, Tuscany has two key regions. The mountainous Chianti region in the north and the coastal plains to the south. Sangiovese is the dominant and most prestigious grape throughout the region. When Sangiovese became the required major grape in Chianti during the 1970s, the other noble grapes like Cabernet Sauvignon and Merlot ended up creating a new style of wine: Super Tuscan.
